 - Blocks
- 2 Presentation structure
 - Sections and subsections
 - Table of contents
- 3 Animations
 - Overlays
 - Commands
 - Examples
- 4 Where to find more

Table of contents

- 1 Basics
 - Document
 - Slides
 - Blocks
- 2 Presentation structure
 - Sections and subsections
 - Table of contents
- 3 Animations
 - Overlays
 - Commands
 - Examples
- 4 Where to find more

```
\begin{frame}  
\frametitle{Table of  
contents}  
\tableofcontents  
\end{frame}
```

Overlays

- Overlays — multiple versions of each frame displayed consecutively
- By default each slide has one overlay
- Overlays are added when commands followed by `<...>` are encountered
- Examples:
 - `<2-4>` — do something for overlays from 2 to 4
 - `<-3>` — do something for overlays from 1 to 3
 - `<2->` — do something for overlays from 2 to the last
 - `<2-4,6,8->` — do something for overlays 2, 3, 4, 6, and from 8 onwards

Commands

- `\only<...>{text}`
put text only in specified overlays
- `\uncover<...>{text}`
put text only in specified overlays saving empty space in all overlays
- `\item<...>{text}`
within `itemize` show item in specified overlays
- `\alert<...>{text}`
highlight text in specified overlays
- `\textbf<...>{text}`
change to boldface in specified overlays
- many more commands...

Using `\uncover`

```
\uncover<1->{  
\begin{block}{Block 1}  
First\ldots  
\end{block}  
}  
\uncover<2->{  
\begin{block}{Block 2}  
Second\ldots  
\end{block}  
}
```

Using `\uncover`

Block 1

First...

```
\uncover<1->{  
\begin{block}{Block 1}  
First\ldots  
\end{block}  
}  
\uncover<2->{  
\begin{block}{Block 2}  
Second\ldots  
\end{block}  
}
```

Using `\uncover`

Block 1

First...

Block 2

Second...

```
\uncover<1->{  
\begin{block}{Block 1}  
First\ldots  
\end{block}  
}  
\uncover<2->{  
\begin{block}{Block 2}  
Second\ldots  
\end{block}  
}
```

Using `\uncover` (2)

```
\uncover<1>{  
  \begin{block}{Block 1}  
  First\ldots  
  \end{block}  
}  
\uncover<2>{  
  \begin{block}{Block 2}  
  Second\ldots  
  \end{block}  
}
```

Using `\uncover` (2)

Block 1

First...

```
\uncover<1>{  
\begin{block}{Block 1}  
First\ldots  
\end{block}  
}  
\uncover<2>{  
\begin{block}{Block 2}  
Second\ldots  
\end{block}  
}
```

Using `\uncover` (2)

Block 2

Second...

```
\uncover<1>{  
\begin{block}{Block 1}  
First\ldots  
\end{block}  
}  
\uncover<2>{  
\begin{block}{Block 2}  
Second\ldots  
\end{block}  
}
```

Using `\only`

```
\only<1>{  
\begin{block}{Block 1}  
First\ldots  
\end{block}  
}  
\only<2>{  
\begin{block}{Block 2}  
Second\ldots  
\end{block}  
}
```

Using `\only`

Block 1

First...

```
\only<1>{  
\begin{block}{Block 1}  
First\ldots  
\end{block}  
}  
\only<2>{  
\begin{block}{Block 2}  
Second\ldots  
\end{block}  
}
```

Using `\only`

Block 2

Second...

```
\only<1>{  
\begin{block}{Block 1}  
First\ldots  
\end{block}  
}  
\only<2>{  
\begin{block}{Block 2}  
Second\ldots  
\end{block}  
}
```

Animated items

```
\begin{enumerate}

\end{enumerate}
```

Dynamic highlighting

Sometimes we want to
`\alert<2>{highlight}`
something,
and sometimes we want to
use `\textbf<3>{boldface}`.

Dynamic highlighting

Sometimes we want to highlight something, and sometimes we want to use boldface.

Sometimes we want to `\alert<2>{highlight}` something, and sometimes we want to use `\textbf<3>{boldface}`.

Dynamic highlighting

Sometimes we want to **highlight** something, and sometimes we want to use boldface.

Sometimes we want to `\alert<2>{highlight}` something, and sometimes we want to use `\textbf<3>{boldface}`.

Dynamic highlighting

Sometimes we want to highlight something, and sometimes we want to use **boldface**.

Sometimes we want to `\alert<2>{highlight}` something, and sometimes we want to use `\textbf<3>{boldface}`.

Where to find more

- Beamer class is included by default in MikTeX
- With beamer class attached are
 - a comprehensive documentation in `beameruserguide.pdf`
 - example presentations with source files
- For best results use `pdflatex`
- Good presentations and good luck!
