It is ranked 591-600 in the World, 106 in Asia, 36 among BRICS Nations and among top 100 under the age of 50. It is also ranked 7 overall and First among Multi-disciplinary Universities in India.

SCHOOL OF COMPUTER AND INFORMATION SCIENCES

The School of Computer and Information Sciences offers high-quality post-graduate teaching and research programmes in all major areas of Computing, Information Science and Artificial Intelligence.

WORKSHOP OVERVIEW

Natural language processing (NLP) is a subfield of computer science, information engineering, and artificial intelligence concerned with the interactions between computers and human (natural) languages, in particular how to program computers to process and analyze large amounts of natural language data. Challenges in natural language processing frequently involve speech recognition, natural language understanding, and natural language generation. This workshop focuses on techniques ranging from Foundations of NLP to the use of new age AI techniques which are used to solve various NLP tasks. The topics range from Encoding of Text to Language Modelling Techniques which equip the participants with necessary tools and techniques for effective problem solving and engineering in NLP.

RESOURCE PERSONS

Speakers are eminent Academicians and Researchers from UoH, IIIT-H, IIT-H, IISc Bangalore & Industry experts.
