

ITLAB-162 IMSc(Life-Sci, HealthPsy, Optometry)  
and IMA Economics  
Assignment - 7 (10 Marks)

Submission in Class - 26 April 2023

**Statistical analysis of the datasets:**

First go through the dataset that is allocated to your group and do the following:

1. Compute mean or frequency count of two properties.
2. Compute correlation of two variables
3. Plot a scatter-plot between two variables of your choice
4. Plot a pie-chart of a distribution of a variable of your choice.

Now frame TWO questions for analysis and write your observations.
